

# **10/14/2009 CERES Data Management Team Meeting**

## **Upcoming Events:**

Science Team Meeting – November 3 – 5 in Ft. Collins, CO

HDF5 Workshop – November 3 – 5 in Maryland near Goddard

## **Notes from the previous meeting**

(Held 9/30/2009 at 10:00 a.m. in Room 2316 at the ASDC)

### **ANNOUNCEMENTS**

For SA support,

1. If you are sure that you have an ODIN issue, send a help ticket to [SDdesktop@asdsun.larc.nasa.gov](mailto:SDdesktop@asdsun.larc.nasa.gov).
2. If you have a non-ODIN issue OR are unsure that it is an ODIN issue, send a help ticket to [help@asdsun.larc.nasa.gov](mailto:help@asdsun.larc.nasa.gov).
3. If you don't hear back from [help@asdsun.larc.nasa.gov](mailto:help@asdsun.larc.nasa.gov) within 1-2 days, send email to Caroline Rasmussen and include the original help ticket.
4. If you have an ODIN password issue, call x47777.

Please use the DMT alias (ceres-dmt@lists.nasa.gov) for emails that pertain to the entire DMT.

There is also a DMTM alias (ceres-dmtm@lists.nasa.gov) that includes those who attend the DMTM.

Please note if activity is for Edition2 or Edition3 in status reports.

Raise visibility of new files as soon as possible so changes can be made to ANGe. A few weeks notice would be nice; put it in your DMTM status report.

### **ASDC and SCF**

SIT:

Promoted Instrument gains and Clouds (SCCR 725) delta delivery.

There's a problem report for GGEO (SCCR 653).

Waiting for a PR before promoting Instantaneous SARB (SCCR 718).

Production:

PRs 71-09 and 72-09 are complete through 5/1/00.

PRs 31-09 – 33-09 are complete through 11/4/07.

Dale asked if there was any overlap for Snow comparison. There isn't, but Lisa can submit a PR requesting it.

User Services:  
No updates.

SCF:  
NEWS quota is now 25TB; SARB quota doubled to 2TB.

Center-wide outage Columbus Day weekend; ASDC plans to run their systems on generators;  
don't know if network will be available.

The archive directory in the home directories on *AMI* are backed up nightly; will add CERES  
CM directory to backups.

*From the previous report:* Phil requested that the QC reports and PCFs be added to the archive;  
these should go in SCF space; need to decide how to do this. *Today's update:* The SEC will  
look into this issue.

### **PRs**

PRs for checking out RDR pre-processor and Build 1 of the C++ code are complete.

Clouds and Inversion ValR14 PRs are complete; evaluation of the results is underway.

Aqua PRs for Edition2 SSF/SFC through the end of 2007 are underway as are the Instrument  
ValR13 PRs for Terra Edition3 gains.

There are two PRs numbered 71-09 – one of them should be 73-09.

### **CM**

Discussed Clouds SCCR 725, ERBE-like SCCRs 726 and 727 – no problems.

ERBE-like SCCR 696 will be disapproved as soon as the third ERBE-like SCCR is submitted  
that is taking the place of 696.

Finished testing Clouds (SCCR 719); expect to release it today.

Discussed schedule updates.

The ephemeris and attitude files in /ASDC\_archive on AMI are through 6/09; real-time  
population is not in place; the ASDC will fix this.

### **SEC**

Sent out the *AMI* deliveries policies for review.

### **Toolkit**

No updates.

## **SUBSYSTEM STATUS:**

### **Instrument**

Working on test delivery to *AMI*.

### **ERBE-like**

Working on Edition3.

### **Clouds**

Delivered Beta2-Edition3.

### **Convolution**

Delivered Beta2-Edition3.

### **Inversion**

Completed integrating new unfiltering algorithm.

Have some questions about ValR14 results.

### **TISA Averaging**

Ran five years of SRBAVG-Lite for Dave to evaluate. Took 12 minutes to run a year on P6.

Need to run seven years of SRBAVG prior to delivery.

### **NPP Issues**

Papers are being solicited from HDF customers for the upcoming HDF workshop, Nov 3-5.

GSIT is likely to slip into mid-November, maybe Nov 17.

Jim is planning to send the 'requirements' package (Requirements Traceability Matrix and supporting documents) to the SDS Test Lead at Goddard (Bob Rodriguez) today or tomorrow.

**Meeting ended at 11:08 a.m.**
